Dear Manager, I write following
reading that the charity, the
RSPCA of which I am a member
has investments in the B.A.T. company
I ask you if your company is
responsible for any use in any way
of animal species in experiment?
Are any of the goods marketed
by B.A.T. tested & use of animal
species prior to sales/comp made?
If any use of animal species in
experiment is undertaken by your
company, will you be so good as to
inform me exactly why you consider
any use of animals to be of value?
Do you not believe that any
use of animals in experiment is
not today better replaced by
purpose of adoption of alter-
native methods in research?

107462942

Look forward² very much, to
hearing from you.
Yours sincerely
(Mrs) Helen Smerman.
