Subject: SOM Brookhaven National Laboratory (Methylphenidate)
Attachments: Mallinckrodt Methylphenidate research purpose letter.doc

Camille,

Brookhaven National Laboratory is one of ten national laboratories overseen and primarily funded by the Office of Science of the U.S. Department of Energy (DOE). I have no objection to sending bulk API to this customer; however, I do question why the letter is dated May 20, 2009.

Hi Dave -

Please read the attached, and let me know if acceptable.

Thanks!

Camille

Hi Michael –

I have received your 222 form for po# 193404. However, I still need a letter on the Brookhaven letterhead, stating the intended use. The letter must also reference your po#, qty and the 222 form number, which is 103486064. Please email this letter to me.

Thanks!

Camille

Subject: Methylphenidate

Dear Camille,

The requirements for our studies at BNL are to receive 4 x 25 gm of Methylphenidate HCl USP. If there is a minimum of \$1000, as we discussed, we will pay that amount. We do prefer that it be packaged in 4 x 25 gm jars. If there is another charge for that please advise. We are using the substance in an ongoing study to compound methylphenidate for injection.

We need to obtain this product (with a minimum of a two year COA) as soon as possible since we will have to halt the on going studies if we do not receive another supply before the first week of May.

Sincerely,

Mike Genua
